

WHY AM I ?

**STRONG
NETWORK**

**BUILD BETTER
COMMUNITIES**

**LEARN BEST
PRACTICES**

WHAT DO OUR MEMBERS SAY?

I love being part of a strong network of people that have similar goals and who I can share with and learn from.

To me, the APA-MA Chapter is made up of 1,300 colleagues AND friends!

To stay connected to the profession and other planners.

AICP Certification is something my employer and clients value.

Engaging with other planners and learning from their experiences.

APA-MA brings together the people, perspectives, and knowledge to build communities that are more equitable, desirable, and sustainable.

YOUNG PROFESSIONALS

It's the best way to connect with planners throughout the state and expand your network.

AICP CANDIDATES

You'll learn a lot from the variety of events and the people you meet.

I find it extremely useful to learn about what my colleagues are doing in other Massachusetts municipalities and what issues they're grappling with.

RETIRED MEMBERS

I like being professionally involved - mentoring new planners, learning best practices, and being part of the team.

American Planning Association
Massachusetts Chapter

ABOUT US

APA-MA represents more than 1,100 planners working throughout Massachusetts. APA-MA improves Massachusetts communities by connecting planners and providing access to best practices and planning experts who understand the local context. We are a clearinghouse for information from state agencies, planning organizations, individual planners, and regional planning organizations. We bring professionals together for educational opportunities, mentoring, networking, and socializing. Many Massachusetts planners work in small offices with few or sometimes no other planners. APA-MA provides opportunities for planners to connect with one another, decreasing their sense of isolation and improving professional satisfaction.

RESOURCES

- Find your next planner!

We provide a free jobs board for municipalities, non-profit organizations, consulting firms, and others. You can also post any RFQs and RFPs with us -- all for free!

- Access MA-specific planning resources

Visit our website, www.apa-ma.org, for planning resources, including the Land Use Manager, Neighborhood Road Design Handbook, and Planning Board Reference Guide. Stay tuned for a newly-updated Land Use Guide!

- Learn about becoming a Certified Planner (and maintaining your certification!)

The American Institute of Certified Planners is the premiere certification for planners. APA-MA provides several resources to help planners get certified. We also offer many opportunities for Certification Maintenance credits to help you stay certified, including our annual two-day conference, held each October.
